Capitán Marco of the London-based punk rock fleet NO FRONT TEETH RECORDS is an unweary demonio for the good punk work and he was the singer of the recently deceased GAGGERS and played in a helluva other bands. He quickly calculated his remaining super-powers: writer of excellent punk poetry + wizard of super catchy melodies = MISCALCULATIONS.

That's simple math. Bam! New band going. Together with drummer Shaun he already wrote and pounded out two LPs on Dead Beat and Rockstar Rec. and now kills everything with this third LP. Though the MISCALCULATIONS know how to add 7+7, and Marco's gritty and snotty voice screams 'punk singer' with every syllable he spits out, MISCALCULATIONS definitely advanced the punk sound (some may call it Post-Punk).

The 12 songs on 'Kill the whole cast' are a tasteful blend of the sound of BUZZCOCKS, WIRE, THE STATUES, even some MIND SPIDERS with the catchy and sharp, yet laconic guitar work and the melancholic and demanding undertone of WIPERS, MASSHYSTERY or THE VICIOUS plus some Electro-Synth-NoWave-Punk of THE UNITS or even THE SPITS.

Always intense, always poetic with outstanding cryptic lyrics and wrapped up in cool imagery.

When this album has passed they killed the whole cast / You will be obsessed when they killed the whole cast!
