Here We sent out our hunch-backed assistant Ygor one night to dig out this record again which originally saw the light of day on SIX FEET UNDER REC. Our scientists enlarged the already slightly 10" body, consisting of the out-of-print "Chimpanzee" 7" and the split 7"s with HENRY FIATS OPEN SORE and BOMBENALARM, by two good inches and attached the "What's new?" 7" in a successful surgical intervention in our laboratories. The result is a 20-songs strong monster of a record that also got a facelift and a more colorful new jacket. Set out to destroy, this Punkrock killing machine will blow your roof!
