Sometimes it just clicks. And even though it may be one-time-only thang, the fruits of this encounter will endure the test of time.

No, we're not talking about that one drunken night with the laquered-down snuff queen you have a baby with now and who's killing you with her monthly payment requests. We're talking about the getting together of Stefan of RANDY with Marcus, Robert and Jens of the REGULATIONS after he was blown away by one of their spectacular performances. They decided to start this band together but only played a couple of blood-drenched shows in their hometown of Umea before calling it quits soon after. Not without leaving us this little bastard of a baby.

The epic "Ghost Riders", the fast and crispy "S.S.D.D." and the ball-swinging "In the City" are three driving, melodic and brutally catchy tunes that carry the unmistakably chromosomes of Stefan's main band RANDY that got in the gene pool with a dark dash of the MISFITS and brought to light by some raunchy guys that know the score. Like all the good things, this leaves you wanting more, even though you know that it will never be.

So put your sticky fingers on a copy of this Punkrock testament and shake it.
