Fortunately, there ain't nothing modern about the rotten Pet Sounds of these lose cannons from the Swabian Reichstadt. They lit their snot-filled crackerjacks on their cigarette butts and throw them straight into the face of all the yuppie scum and career advisors, covering the cities in good old 77' styled Punkrock slime. Starting off with the Rock brick on the accelerator in "Alert Alert" they move more towards the Punk in "Application Deadline Arrives" until they finally send they BRIEFS into retirement with "Snippets", "Killing Sounds For Rotten People" and "Clean City", all spilling over with catchy choruses and melodies to kill for. Probably the most poetic two-fingers-up-the-air Punkrock you've ever heard!
